Fibo | Design

We are passionate about innovation and Scandinavian living

In our collections we unite the natural with the stylish. Feel free to choose from a palette of different designs, colours and structures. Let us inspire you to create and furnish with the newest trends within Scandinavian design.

Fibo | Focus on innovation

Despite our humble beginnings, Fibo's focus on innovation has always been our biggest driving force. In wet rooms there is no room for error. Even though you might just be sprucing up a small bathroom, it is reassuring to know that master builders, public sector developers and professional tradespeople all choose Fibo.

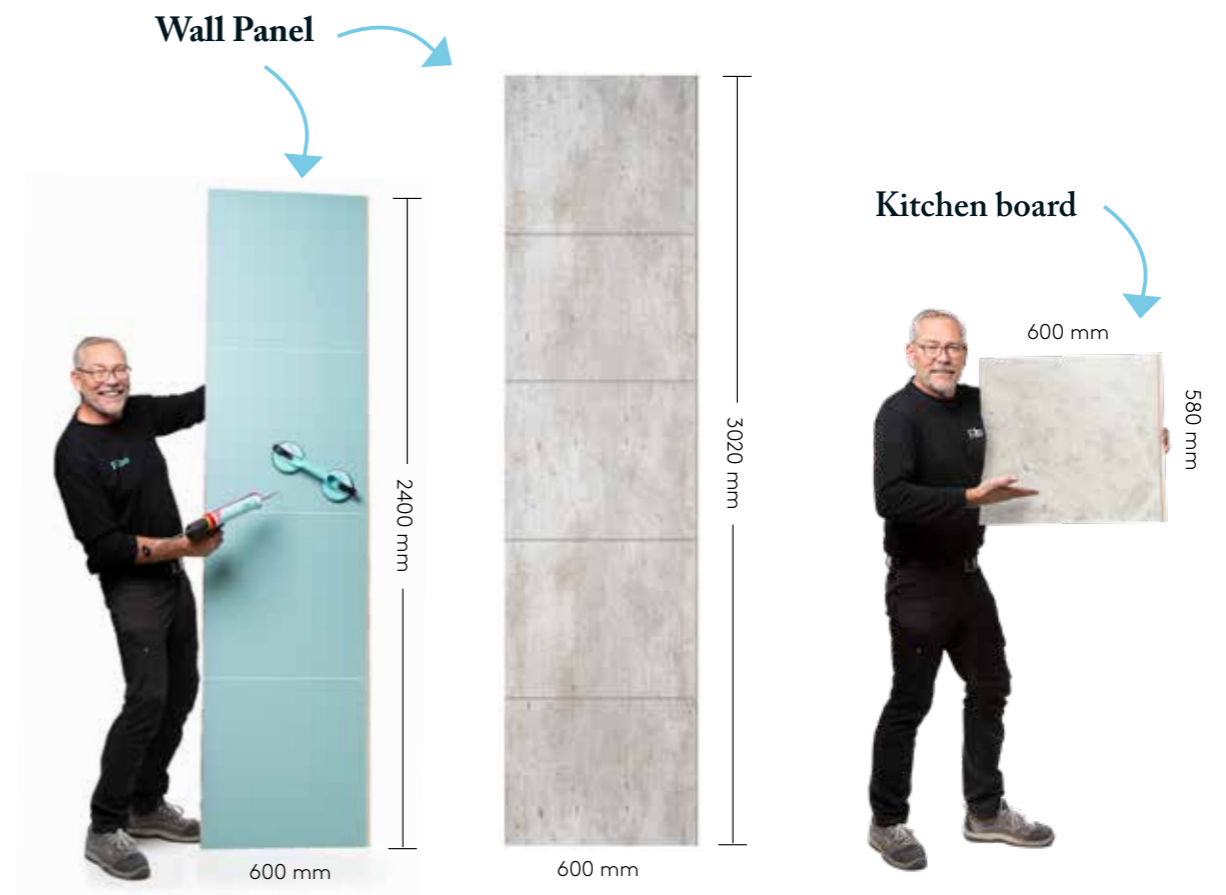

Fibo | About Fibo

Build a quality bathroom or kitchen with wall panels from Fibo

Fibo is engaged in ongoing product development and is always looking to tailor its products to meet its customers' needs. You can mix and match styles to suit your personal taste. Design and quality go hand in hand.

Our panels are compliant with the European ETAG022 for wet rooms. No need for hassle with plaster, membrane or tiles. The panels can be screwed directly onto existing walls or stud walls. They are also easy to cut and adapt to your walls. All panels use our unique and patented AquaLock system and are easy to fit.

The smooth, strong surface is capable of withstanding direct water exposure and big temperature fluctuations, and the panels are easy to wipe down and keep clean. Just follow the simple fitting instructions, and you're guaranteed a wall that will last for years.

Fibo | Sustainability

Our own sustainability goals

We believe that responsible and sustainable development is also a wise way of doing business.

That's why we aim for the lowest possible emissions and are careful that our suppliers comply with strict recycling requirements at all stages. In line with the goal of sustainable forest management, the wall panels are PEFC certified. A clear advantage of using wood products is the potential for storing carbon from the atmosphere throughout its lifetime.

Fibo outperforms tiles on key parameters

Fibo | Collection: Marcato

Collection: Marcato

Marcato is our largest and most varied range. It includes wood textures and concrete surfaces as well as numerous other finishes. The Marcato collection also contains various effect panels for that extra touch.

More about these on page 18.

Fibo Marcato 2272 S BLACK MARBLE M6060 // M00

Fibo Marcato 2204 S CRACKED CEMENT M6060

Fibo Marcato 2145 S GREY CEMENT M6030

Our biggest collection

The Marcato comes in a wide range of patterns, surfaces and tile sizes. The grout line is 1.8 mm wide and available in either white or grey. You can choose from natural colour tones inspired by wood, earth and stone, all with different textures.

At fibosystem.com you will find the Fibo Visualizer, a tool which allows you to try out our many different designs. Experiment with different combinations to see which panels work best together!

Fibo | Collection: Crescendo

Collection: Crescendo

Create a relaxing atmosphere in your bathroom with Crescendo – the collection that we are most proud of: 100% three-dimensional panels!

Crescendo = unique!

The collection has a unique surface with a three-dimensional effect. Both panels and grout lines have an irregular surface, giving them a realistic, natural look.

Please note that Crescendo is specially designed to incorporate authentic-looking grout lines, and the grout line width may therefore vary by +/- 2 mm. You should also know that Crescendo grout lines are not milled but are part of the panel design.

Fibo | Crescendo Decor selection

Fibo | Extra Matt and High Gloss Colour Collection

Colour Collection!

Fibo are introducing three brand new colours to add to our already varied Colour Collection. With their extra matt surface, Light Sand, Warm Grey and Olive green will create harmony and atmosphere – either in a bathroom or a bedroom.

Our high gloss range also includes a number of colours.

Fibo Colour Collection EM 5233 LIGHT SAND M6030 / M00

Fibo Colour Collection EM 5200 WARM GREY M6060 / M00

Fibo Colour Collection HG 2112 AQUAMARINE M6040

Colours can liven up a room and make you happy

Reinvigorate your home with colours from the Colour collection. We offer a range of vivid colours in a high gloss or extra matt finish, giving you a large selection to choose from and numerous possible combinations.

Our high gloss panels are available with either 3.5 mm or 1.8 mm grey grout lines. Extra matt panels come with 1.8 mm white grout lines.

Fibo | Collection: Fortissimo

Collection: Fortissimo

The classical Fortissimo design is a classy choice which fits in most homes. Fortissimo is available in a variety of designs.

Just ask us for advice! Many Fortissimo panels also come in longer lengths to fit rooms with high ceilings. Read more on page 38.

Fibo Fortissimo 3091 HG DENVER WHITE F01

Fibo Fortissimo 3091 HG DENVER WHITE F05

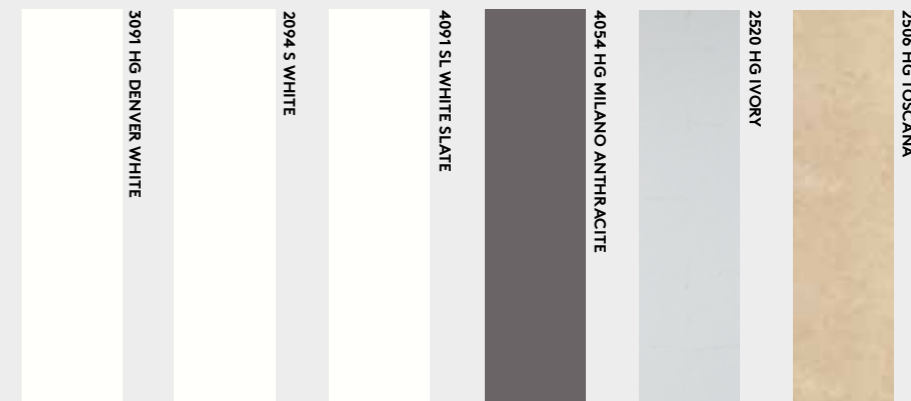

Clean lines and classical designs

All the designs in the Fortissimo range have a smooth surface and can be combined to create a stunning room. The groutline width is 3.5 mm, and all panels come with grey grout lines, except from Toscana which has a white grout line.

Fibo Fortissimo 2506 HG TOSCANA F00

Fibo | Collection: Fortissimo

Fibo | Fortissimo Decor selection

Fibo | Collection: Legato

Collection: Legato

The Legato collection contains four plain designs with no grout lines and a smooth surface. The neutral colours are light or shades of grey and will suit most homes. Go for a minimalist silky look or the steel-like Titan!

Panels are available in standard lengths (2400 mm) as well as extra long lengths (up to 3020 mm). More on page 38.

Silky surfaces with the timeless Legato

This collection is perfect for most homes with standard or high ceilings. It is an inexpensive alternative that looks as good in the laundry room as it does in the hallway or bathroom.

Legato panels come without groutline and can therefore easily be combined with other Fibo designs.

Collection overview Kitchen Board

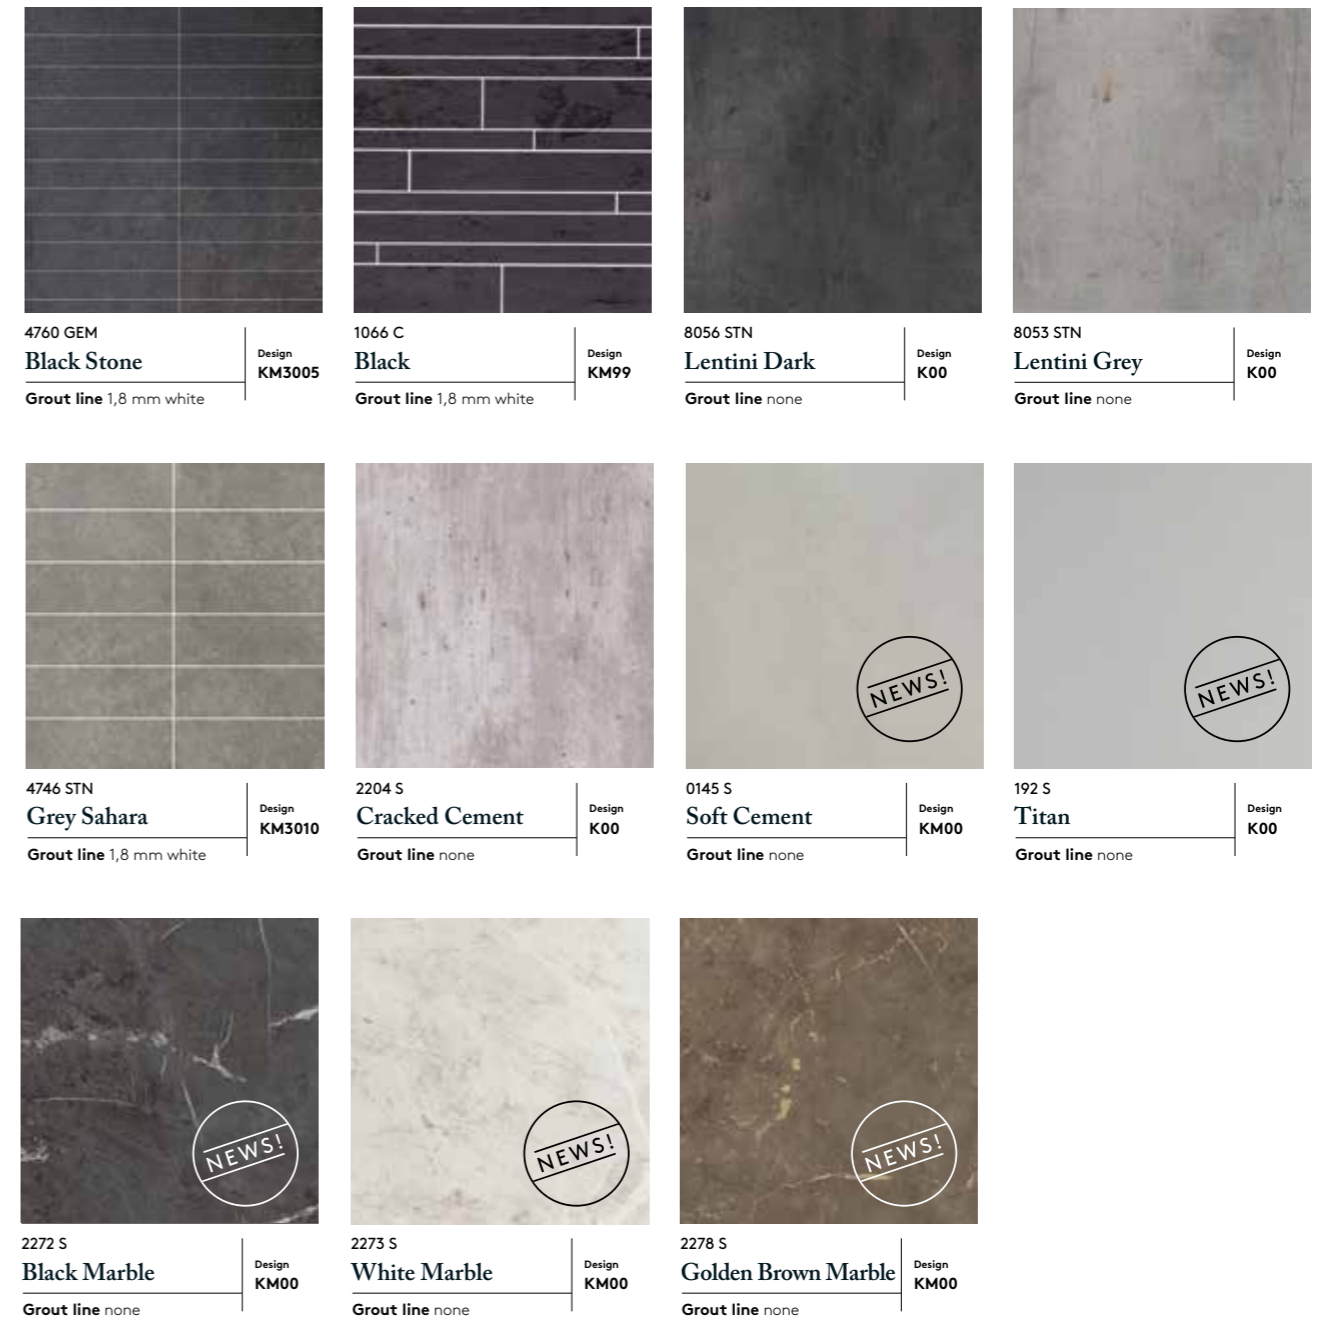

Panel size | 11x600x580 mm

Our Kitchen Board collection comes in a standard size (600 mm x 580 mm), but don't forget that the panels can also be combined with full length panels.

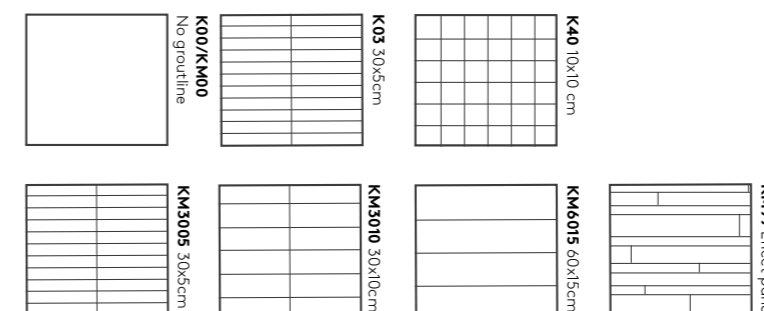

The possibilities are endless, and we recommend experimenting to find a solution that suits you and your kitchen.

Fibo | Kitchen Board - Collection overview

Kitchen Board design | 1,8 mm or 3,5 mm grout line, grey og white grout line colour.

Please note: The colours may differ slightly from the actual product. The pattern on one panel may not necessarily match the pattern on the following panel, meaning that some panels will look the best with a grout line design. Please contact us if you are in doubt!

Abbreviations for surface structures on the panels: HG = High Gloss, SL = Slate, S = Silk, GEM = GEM stone, STN = Stone, EM = Extra matt, RU = Rustic, C = Cement.

Easy and fast fitting of Fibo Wall panels and Kitchen Board

According to calculations, mounting of Fibo wall panels goes at least five times faster than laying tiles. Most time you save on the groundwork - Fibo can be mounted directly on studs, and on various types of existing wall.

Please see the installation guide on the next pages or check out fibosystem.com/install-fibo for more information.

Correct accessories are half the job

Fibo | The cost efficient and smarter solution

The smart way to transform your wall

Fibos wall system is a quality Norwegian product, manufactured in contemporary designs, which is both easy and cost-effective to use.

Fibo | Warranty

Fibo wall system is approved according to the European technical approval guideline, ETAG022 with a warranty of 15 years. It gives you a bathroom that is durable enough for decades, but simple and affordable enough to replace the panels simply because you want new colours or new designs!

Fibo | The smart way to transform your wall

Feeling inspired?

We hope this has inspired you to explore the possibilities offered by Fibo wall panels. Let your imagination run riot with all our designs and practical solutions.

Visit fibosystem.com for more information and inspiration.

Fibo | The smart way to transform your wall

Fibo | The smart Aqualock solution

Fibo Aqualock: 100% Waterproof

With our patented Aqualock click system, Fibo panels are perfect for both refurbishment or new construction projects. The system makes the product unique and 100% waterproof, simplifies the assembly and minimizes the joints. There's no need for a water vapor barrier or other waterproof membrane behind the panels.

Design approval: D21569 No.00 + US.00. Patent approval: P24306 No.00 + US.00 + EP.00.

To make the surface waterproof, must be sealed all corners, joints, profiles and edges.
